

TESSUTO® ELECTRIC

design **Marco Pisati**

5 YEARS WARRANTY

MATERIAL:

Aluminium heating elements 150 mm.

FIXING KIT:

Brackets, air vents, hexagonal tool, plugs and screws for mounting suitable for use on compact or hollow brick, installation notice included. The fixing kits are compliant with VDI 6034 norm, class 4.

PACKAGING:

The radiator is protected by protective corners, film in polyethylene and with a carton box.

PAINTING PROCESS:

Painted with ecological epoxy (Certificate DIN 55900-1,-2).

COLOURS:

Radiator and fixing kit: standard white colours R01. For other colours see colour chart.

PRODUCT CERTIFICATES

AWARD

Electrical resistors: CLASS 2

Minimum class protection: IP 44

Seasonal energy efficiency η_s : $\geq 38\%$

Control: Power unit + Digital chrono thermostat in radio frequency

Wire Length: 1000 mm with Schuko plug

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected. The electric radiators must be always installed outside zone 1 and 2.

In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

EACH RADIATOR IS UNIQUE

Each Tessuto radiator is unique, the image is always similar to the original but the rhythm is always different, resulting in infinite rhythms and designs. The assembly of the elements involves random combinations of the motif that makes each radiator a "unique" piece different from the others.
